MUD GEYSERS SPOUT IN IMPERIAL VALLEY

Los Angeles, Cal., July 17.—Visitors here from the Imperial Valley, California, told of a recent disturbance in Salton Sea, a body of water formed there 12 years ago when the Colorado river overflowed its banks and coursed into a part of that section that is below sea level.

This disturbance, which occurred two days before a slight earthquake was felt at San Diego, 100 miles or more to the west, consisted of the prolonged eruption—for an hour or more—of a number of mud geysers, which tossed a mixture of mud and water, pearl grey in color, to a height of 60 feet.

Geologists of the district hold a theory that the geysers, which have erupted there before, but never to such a height or for so long a time, serve as vents for gasses formed far below the silt which forms the soil of the valley to an estimated depth of 1800 feet.

10,000 DOGS USED BY ALLIES ON WEST FRONT

Nome, Alaska, June 1—(By mail)—Battle flags of the world having been forfeited, Nome's canine war veterans—Alaska dogs sent from here to the western front—are soon to be demobilized, according to word received from the Blue Cross society, which is known as the "animal Red Cross." Some of the dogs may be sent back to Nome.

No service flags hang in Nome for these Malamutes, Siberian dogs and Huskies and it is generally understood that all of Nome will not welcome all of the dogs back. Nome has enough dogs now, it is believed.

Some of the dogs formerly owned by "Scotty" Allen, noted driver of fast dog teams, will be given a welcome. Allen made a specialty of raising fast dogs for the races here each spring.

Approximately 10,000 dogs were used by the allies on the western front during the war. Many of them were loaned to the French government and are to be returned to their owners.

THIS WILL ASTONISH GRANTS PASS PEOPLE

The quick action of simple witch-hazel, hydrastis, camphor, etc., as mixed in Lavoptik eye wash, will surprise Grants Pass people. One girl with weak, strained eyes was helped by a single application. Her mother could hardly sew or read because of eye pains. In one week she too was benefited. We guarantee a small bottle of Lavoptik to help ANY CASE weak, strained or inflamed eyes. Aluminum eye cup FREE. National Drug Store.

HERE'S RARE CHANCE FOR MIGHTY HUNTERS

London, July 17.—The life of the famous African elephant seems to be in danger for the South African Cape Provincial council proposes to exterminate those in the Addo Bush forest, near Port Elizabeth.

For generations past these animals have been a great nuisance to the farmers. They have damaged crops and killed several persons.

The African elephant is noted for its laziness—quite the reverse to its Indian relative who when called upon cheerfully and easily shoulders a burden of a ton or so. However, an effort is to be made to train the young ones for log-hauling in the Cape forests.

The rounding up of the animals has involved the erection of a number of lofty observation towers and so large are the numbers to be killed that the shooting of the animals will take over six months. The natives enjoy elephant's meat and the prospect of an unlimited supply for several months is being eagerly looked forward to.

RACE WARS NOVELTY IN OLD MERRIE ENGLAND

London, July 17.—Race riots in the northern part of England and Wales have created a stir throughout the country, principally because of the novelty of such occurrences in these islands.

Normally there are few negroes or aliens with colored skins to be seen in Great Britain, but the exigencies of war caused the importation of a large number of them to work on seaport docks and to recruit the ranks of manual laborers depleted by the call for fighting men. They were brought from various parts of the world, South Africa and the West Indies supplying the bulk of them. Many Arabs also were imported.

Repatriation of these colored men has been slow, with the consequence that many demobilized British soldiers have had what to them seemed the bitter experience of seeing strangers engaged at profitable employment while they, themselves, looked in vain for work.
